**Note:** Students are expected to incorporate suggestions from the feedback provided in the answers. Discussion classes for the tests are also available online in your portal to aid in your preparation. Further, students are requested to see the good copies of the tests and learn from them. You can also discuss your copy with a Mentor and discover ways and means to improve your answers, or if you have any issues with this test / copy. Ask specific questions, to get specific answers.

---

## EXAMINER'S REMARKS

---

### CRITERIA FOR THE FEEDBACK SECTION AT THE END OF EACH QUESTION

1. **AWIS = Answered What is Asked.** This means whether you have addressed the core demand of the question or not. Addressing the core demand of the question gets you an objectively fair score. It is examiner's perception if you have understood the question and if you know the answer in the first place. Creative answer writing, sometimes missing the core demand, may fetch very high or very low scores, and exposes your answer to the subjectivity of the examiner.
2. **CD & VA = Content Density & Value Addition.** Examiner will evaluate the quality and quantity of your content in the answer. In the same word limit and space limit have you (a) written what is asked (b) gone beyond what is asked (c) enriched answers through combination of ( but not all!) suggestions, ideas, quotes, flowcharts, diagrams, facts and figures, data etc. This affects objective components of assessment.
3. **S & F = Structure & Flow** = Whether you have structured your answer properly or not. Whether the answer has been broken into parts and sub-parts and each part has been addressed appropriately or not. Whether the flow of the answer is maintained. Affects both subjective and objective components of assessment.
4. **P & R** = How your answer performs on the criteria of **presentation, ease of read, clarity and apparent effort** in writing the answer. This affects the subjective components of assessment.

Q.1) "India's democratic roots are deeply embedded in its ancient civilizational ethos." Discuss in the context of India being referred to as the 'Mother of Democracy'. (10 marks, 150 words)

"भारत की लोकतांत्रिक जड़ें इसकी प्राचीन सभ्यतागत प्रकृति में गहराई से समाहित हैं।" भारत को 'लोकतंत्र की जननी' कहे जाने के संदर्भ में चर्चा कीजिए। (10 अंक, 150 शब्द)

Mark Twain has called India the 'mother of history and great grand mother of tradition & civilization'. This reflects the continuity of those ethos in our democracy.

Democratic Roots	→	Ancient civilizational ethos
------------------	---	------------------------------

① women's participation and universal suffrage	→	Participation of ' <u>Gargi</u> ' x ' <u>Apala</u> ' in Sabha & Samiti
--	---	--

② <u>secularism</u> forms the root of our democracy	→	The amalgamation of <u>Jainism</u> , <u>Buddhism</u> in <u>Ellora Caves</u>
---	---	---

③ <u>Rule of Law</u> is the foundation of democracy	→	<u>Arthashastra</u> and <u>Dharmashastra</u> teaches us the foundation value of rule of law
---	---	---

- ④ Environmental Stewardship as democratic → The worshipping of nature in the early vedic period.
- ⑤ Universal acceptance of diversities → The cultural amalgamation in Chandhar Art
- ⑥ Equal Representation and election → In ancient India, the king or the leader was a trustee of the masses.
- ⑦ Union-Federal balance → Ancient India had a decent federal structure with local rulers and the Brahmins in ritual alliance.

Thus, India's democracy has its roots in ancient civilization and ethos, still reflecting as India enters 75<sup>th</sup> year of democratic existence.

Q.2) Elucidate the significance of tiger and elephant figures in Indian mythology, art and architecture.  
(10 marks, 150 words)

भारतीय पौराणिक कथाओं, कला और वास्तुकला में बाघ और हाथी की आकृतियों के महत्व पर प्रकाश डालिए।  
(10 अंक, 150 शब्द)

From the 'Ashoka Emblem' to temple pillars, Tigers & elephants represent India's deep connection with animals and their reverence.

### Significance in mythology

① Ganesha : Lord Ganesha and his 'elephant head' has continued to be revered in 'Ganesh Chaturthi'

② Festivals : In Kerala, Elephant is still celebrated. In Bengal, Tiger as vehicle of goddess

Surga.

### Significance in Art

① Elephant figurines & in wall art

: ⑤ The wall paintings of Maharashtra

② Tigers as guards on pillar art

③ Tigers and Elephants in the old Indus valley seals : Indicating their presence in > 1000 BCE

Significance in Architecture

① Elephant :- a) As an entrance welcome exhibit, throwing water through trunk.

b) As base of the Kailashanath temple in Ellora.

② Tigers : - a) Represented in Buddhist caves indicating the 'roaring Buddha'

b) As a representation of 'courage' depicted in 'Hazara Ramo' temple

c) As the force guard depicted on pillar of 'Ramappa temple'

Tigers x Elephants form the root of our civilizational ethos, finding relevance through their connection work today.

Q.3) The arrival of Lord William Bentinck marked a period of transformation in the British Indian State. Discuss. (10 marks, 150 words)

लॉर्ड विलियम बेंटिक के आगमन ने ब्रिटिश भारतीय राज्य में परिवर्तन की अवधि को चिह्नित किया। चर्चा करें।

(10 अंक, 150 शब्द)

Lord William Bentinck arrived as governor general during the 1820s, taking up important issues and altering the face of British Indian state.

A period of transformation

- ① Abolishing Sati: In 1829, through a regulation and with Raja Ram Mohan Roy's activism, Sati was abolished.
- ② Social Reform: He also raised concerns over 'widow remarriage' and 'women's education'.
- ③ Collaboration: With young Indian activists and groups like 'Brahme Samaj'.
- ④ Institutions: Bentinck's reign is crucial for setting up of the 'Hindu College'.

⑤ Vernacular Orientation: The precursor to the 'Macaulay's minute', it was during Bentinck that cries for 'vernacular' education caught speed.

⑥ White Superiority: While previous rulers like Cornwallis were rulers, Bentinck further restored faith of poor Indians in the superiority of the white.

⑦ Groundwork: It laid the ground work for further developments in Railways & telegraph.

Thus, while Bentinck's reforms were progressive, they made the 'moral superiority' of the English more cemented in the psyche of the Indians.

Q.4) Explain how the American War of Independence deprived Great Britain of one empire, but it strengthened the foundations of another. (10 marks, 150 words)

समझाइए कि किस प्रकार अमेरिकी स्वतंत्रता संग्राम ने ग्रेट ब्रिटेन को एक साम्राज्य से वंचित कर दिया, लेकिन दूसरे साम्राज्य की नींव को सशक्त किया। (10 अंक, 150 शब्द)

The American war of independence in 1776 was a watershed movement in context of world politics & nation's sovereignty.

How it deprived Britain's One Empire Vision

① Exposed British mercantilism

→ The Proton Tea Party was a violation & resistance to inhuman taxing.

→ The Stamp Act was also violated, deferring Britain's moral superiority.

② Exposed Britain's military prowess

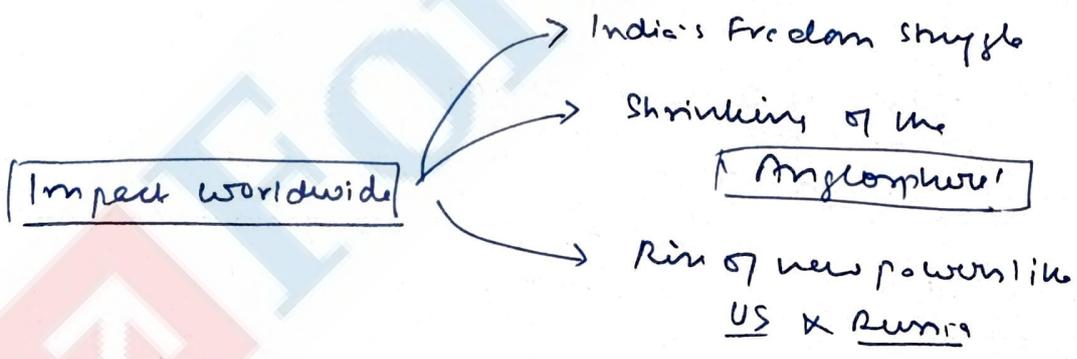

→ Fighting against Americans in America proved too costly for English.

③ Rise of Leaders → equally competent

→ Thomas Jefferson arose as the leaders who took the battle to the English.

## How it strengthened the foundation of another

- ① French Revolution : straight from the book of American revolution, leveraging the power of 'Liberty' x 'Equality' for which the Americans fought.
- ② India's war of Independence : Exposure of Britishers helped raise nationalist sentiments (e.g.) Dandi March (salt tax)
- ③ African movements : Exposure of 'British' looting policy united Africans to push them out.

The recent conceding of the 'Chagos' Island to Mauritius by UK indicates the effect of the 4<sup>th</sup> July, 1776 revolution.

Q.5) What are Rare Earth Elements (REEs)? Discuss the multi-dimensional implications of uneven distribution of REEs in the world. (10 marks, 150 words)

दुर्लभ मृदा तत्व (REEs) क्या हैं? विश्व में REEs के असमान वितरण के बहुआयामी प्रभावों पर चर्चा करें। (10 अंक, 150 शब्द)

The Lanthanide to Lutetium series of the periodic table lists some elements which are very thinly distributed in the earth's crust, making their extraction uneconomical - they are called Rare Earth Elements.

Distribution of REE (Uneven)

As we see, more than 60% is reserved in china making it's impact cross social, economic & political paradigms

380500 811413 1910150052 (2023-07-21 15:34:11)

## Implications

① **Social**: a) Exploitation of labour in extraction

(P.S) **Xinjiang** province of China

b) Unequitable distribution of benefits to society → most of the REE are used for export and not inland use.

② **Economic**: a) **Heavy Reliance** on one source → vulnerable to geopolitical conflict

(E.S) More than **90%** **Good Germanium** comes from China.

b) Trade wars & tariff barriers.

③ **Political**: a) Leverage **trade imbalance** in geopolitical discussions

b) Shaping climate discussions: Will more than **60%** of solar plates being built in China, climate discussion don't happen without them.

While India doesn't have reserves need, it should focus on **manufacturing** for REE imports.

Q.6) Highlight the salient differences between the Himalayan and the Peninsular drainage Systems. (10 marks, 150 words)

हिमालयी और प्रायद्वीपीय अपवाह प्रणालियों के बीच प्रमुख अंतरों पर प्रकाश डालिए। (10 अंक, 150 शब्द)

The Indian drainage system can be divided into Himalayan & Peninsular, indicated by the Vindhyas as the barrier.

### Himalayan Drainage

- ① Very long rivers
- ② Ganges, Brahmaputra
- ③ snow fed and perennial

### Peninsular Drainage

- ① comparatively shorter
- ② Rainfed and seasonal

- ③ Dendritic drainage pattern
- ④ Flows over alluvial plain ~~is~~ in the north and in Himalayan gorge in the east -
- ⑤ Form large delta
- ⑥ High elevation allows deep geomorphism like plateau alluvial fans
- ⑦ Fit for hydroelectric power generation  
e.g. Kichanganga

- ② Trellis, rectangular, meandering pattern
- ④ Flows mostly through continental archaean terrain in the south
- ⑤ Do not form major delta. Only lagunas & back water.
- ⑥ Low elevation of north, however waterfalls do form (3 eg)
- ⑧ Not fit for power generation but small dams are made. e.g. Idukki

The Himalayan is the source of life giving water plain whereas peninsular drainage supports life and diversity, both equally significant

Q.7) Describe the nature and mode of origin of the main types of rock at the earth's crust. (10 marks, 150 words)

पृथ्वी की पर्पटी पर मुख्य प्रकार की चट्टानों की प्रकृति और उत्पत्ति के तरीके का वर्णन करें। (10 अंक, 150 शब्द)

The Earth's crust is 8-40 km and contains rock of all three kinds - Igneous, Sedimentary & Metamorphic.

### Types of Rocks

#### (i) Igneous

→ Nature: Basaltic

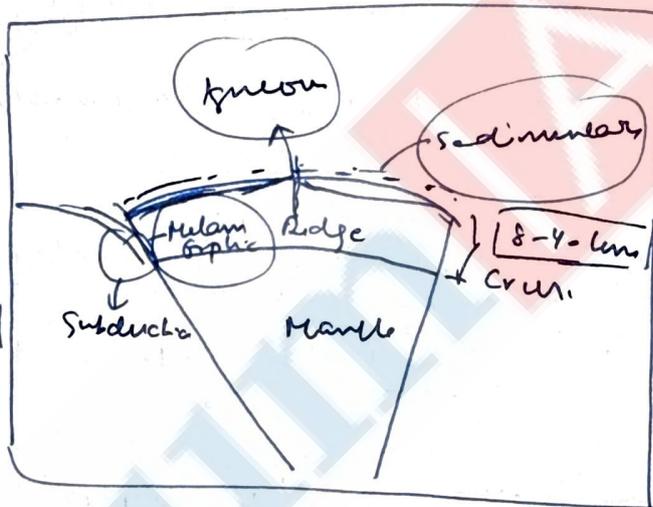

or Granitic

Composition

depending on whether the crust is Continental Oceanic or continental

↳ High density ( $> 3 \text{ gm/cc}$ ) for oceanic crustal rocks  
Low density for continental.

→ Mode of origin → → Convectional current in the mantle causes magma to uplift and form crustal igneous rocks via Fractional Crystallisation.

③ Sedimentary Rocks : Top layers of the crust, formed after millions of years of deposition.

Nature : The Benthic layers → layers close to those contain limestones

The deeper layers have shales & turbidites

origin : sedimentation, Carbonate precipitation

④ Metamorphic Rocks : Contains rocks like Gneiss, Quartzite etc.

Nature : Heavily metamorphosed, All fossil evidences gone, chemically altered.

Mode of origin : Subduction zone : high

Temp & condition and high pressure leads to chemical alteration.

These three rocks define the nature of crust, simultaneously converting into each other.

Q.8) The alienation of modern lifestyles from nature has contributed to the ongoing environmental crisis in India. Examine. (10 marks, 150 words)

आधुनिक जीवनशैली में प्रकृति से अलगाव ने भारत में चल रहे पर्यावरण संकट में योगदान दिया है। परीक्षण करें। (10 अंक, 150 शब्द)

As per European Union's Copernicus, world's temperature has crossed 1.5° C limit for the first time in 2024 - indicating ~~an~~ a crisis brought by humans.

### Exhibits of Alienation from Nature

- ① AC >> Planting Trees : Over reliance on air conditioners.
- ② Cab, Taxi >> Walking : Even for minor commutes, people take cab or bike out.
- ③ Quick Consumption : Consumption culture has led to plastic pollution. India is the largest plastic polluter in the world.
- ④ Internet Reliance : Extensive use of chat GPT, which, as per Economic Survey will consume more energy than USA of India.

The Environmental Crisis

- ① Air Pollution : 40% due to vehicular emission.
- ② Water Pollution : Eutrophication leading to dead zones.
- ③ Extreme weather events : Forest fires in California due to less albedo and global warming.
- ④ Groundwater Crisis : 11.2% of arched sources overexploited as per CGWB.
- ⑤ Disproportionate Impact : On poor and marginalised leading to disruption in efficiency.

WAY AHEAD

- Corporate responsibility over green ( EIA → Inquiry )
- Incorporating mission LIFE
- Adopting Electric vehicle (FAME)

The SDG 13 is explicit. We must save the Nature & Earth because we owe it to the next generation.

Q.9) What do you understand by the term 'urbanisation of poverty'? Also, explain how urban poverty differs from rural poverty in India? (10 marks, 150 words)

निर्धनता का शहरीकरण शब्द से आप क्या समझते हैं? साथ ही, यह भी बताइए कि भारत में शहरी निर्धनता ग्रामीण निर्धनता से किस प्रकार भिन्न है? (10 अंक, 150 शब्द)

'Urbanisation of Poverty' refers to the experience of poverty that moves away from basic needs and climbs higher up in Maslow's hierarchy of needs.

### Explanation

#### ① Poverty of Aspirations

→ In the hustle culture, Urban living people feel

poor if they don't have lofty ambitions.

#### ② Poverty of Social Clout

→ Not having a 'buzzing' social life is near as being poor socially.

#### ③ Poverty of People

→ Individualism in Urbanisation leads to this. (e.g.) single living people in metros.

## The Difference

### Urban Poverty

- Poverty of intangible
- ~~is~~ Not Quantifiable
- Stems from comparison
- can lead to mental fatigue & depression
- Smaller issue in India as of now

### Rural Poverty

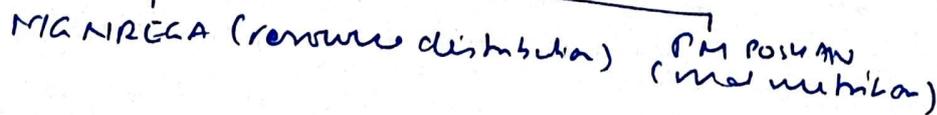

- Poverty of tangible  
basic food, electricity
- Quantifiable  
☹️ WB's \$ 2.15/day
- Stems from socio-economic inequality
- Leads to mal-nutrition, maternal mortality etc.
- Big issue in India and has more focus

### Way Ahead

→ Reducing Urban Poverty requires

whereas reducing rural poverty requires

Q.10) Globalization has redefined the idea of community and kinship in Indian society. Do you agree? Justify your answer. (10 marks, 150 words)

वैश्वीकरण ने भारतीय समाज में समुदाय और रिश्तेदारी के विचार को नए सिरे से परिभाषित किया है। क्या आप इससे सहमत हैं? अपने उत्तर का औचित्य स्पष्ट कीजिए। (10 अंक, 150 शब्द)

Globalisation has connected the Indian cultural exports to global circuits, allowing the realisation of One World, one Family.

How it redefines the idea of Community & kinship

- ① Information travel : News of communal harmony (e.g.) The Malerkotla iflas party reaches every corner of the world due to globalisation.
- ② Brings people closer : People feel closer to others who may be living very far → redefining kinship.
- ③ Interpersonal Relations : Zoom Parenting changes how community looks at parenting.
- ④ Role of women : Women, with dual responsibility, has emerged as a stronger entity.

However, Alcoholism has also reduced the  
idea of community vs kinship

- ① Digital Proximity : Has Reduced the idea  
of familial bonds with parents.
- ② Inflammation : Communal disharmony due  
to sensationalization of trivial issues.
- ③ Love Foundation : kinship that develops  
now though quick to form but are easy  
to fracture. (e.g.) Rising cases of divorce
- ④ Grand Parents' care : The elderly are being  
increasingly overlooked due to massively  
increasing generational gap.

For alcoholism to work as an enabler between  
communities, it should look for  
increasing communication.

Q.11) The flourishing of various art forms during the Kushana period reflects the rich and diverse cultural landscape of the time. What insights does this provide into the socio-cultural aspects of that era?

(15 marks, 250 words)

कुषाण काल में विभिन्न कला रूपों का उत्कर्ष उस समय के समृद्ध और विविध सांस्कृतिक परिदृश्य को दर्शाता है। इससे उस युग के सामाजिक-सांस्कृतिक पहलुओं के बारे में क्या जानकारी मिलती है? (15 अंक, 250 शब्द)

The Kushana Period covers the 1st century

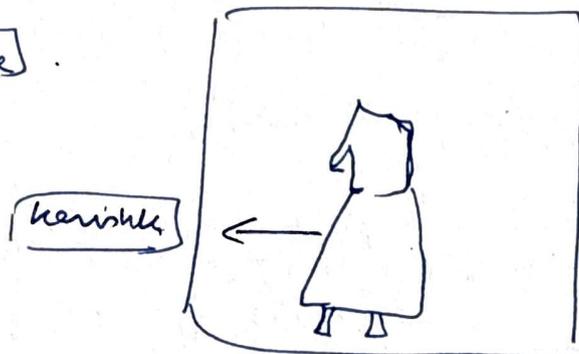

↳ offshooting from the Yuechi tribe, the Kushanas built an empire that allowed art to flourish in multifarious ways.

Art of Kushana → A cultural mirror

① Gandhara Art : Kushanas brought with them Monks and architects from Ancient Greece and Rome.

(eg) Buddha sculpture

② Mallura Art : Kanishka had one of his capitals in Mallura where we see the headless Kanishka.

② Anthropomorphic Buddha : It was during the Kushanas that human like images of Buddha emerged.

④ Coin Art : ~~As~~ Not only the purity but the imprints on gold coins were exemplary.

⑤ Hellenistic Influence : Greek modernism was a highlight of Kushana art.

### Socio-cultural Reflections

① Secular and A Tolerant

-> Presence of both Buddha & Shiva at Takht-i-Bahi.

② Social Equality and equity

-> Rampant use of gold coins indicates a fair equal society.

③ Technological advancement in society

-> Introduction of 'boots' & 'saddles'

380500\_811413\_1910150052\_(2025-07-21 15:34:11)

④ Buddhist Influence

→ The 4<sup>th</sup> Buddhist council and the development of Mahayana Buddhism.

⑤ Influence on Modern Art

→ Mulkara & Gandhara Art allows us to infer the presence of 'cultural independence' and autonomy.

⑥ Carle based impact : Their art form allowed carle-interchanges because kernamas were now being readily accepted and thus took upon the carle of Rajputs & Brhmanas.

The kernamas were an important events in India's cultural development, influencing modern Buddhist masterpieces and indigenous art.

Q.12) Trace the events that led to the Civil Disobedience Movement. What were its outcomes?  
(15 marks, 250 words)

सविनय अवज्ञा आंदोलन को जन्म देने वाली घटनाओं को स्पष्ट कीजिए। इसके परिणाम क्या थे? (15 अंक, 250 शब्द)

When the Non-Cooperation movement was withdrawn, the obvious next step was a mass civil disobedience movement. But it had to wait. The events between 1920 & 1930 finally determined its timing & relevance.

### Events that led to CDM

- ① Political Void post NCM : There was a void after NCM. People needed action. The CDM was the final culmination.
- ② The Mont-Ford Reforms : Now called it 'inadequate'. It was heavily disrespectful.
- ③ The Pro-changers : Debates on council

entry finally led to its acceptance in the League session (1922). Wrecking the parliament from within accumulated tension.

④ The Simon Commission (1927): No Indian member to judge the efficacy of the Montford reforms.

⑤ Insulting 'Newspaper Report' (1928): Many were unhappy with 'conceding' to dominion status.

⑥ Belharve session (1929): On the banks of the Ravi river, Nehru declared the goal for 'complete independence'

⑦ Gandhi's 11-point demands : Rejected.

⑧ The Movement → All these events led up to the crescendo that culminated in Gandhi's breaking the salt laws at Dandi & formally starting the Civil Disobedience Movement.

## Outcomes

- ① Undermining the salt law : Public humiliation of British in the eye of the world.
- ② Inaction Limbo : British were 'denned if they do, denned if they don't' do anything.
- ③ Mass Arrest : The government came down heavily, leading to mass arrest.
- ④ On equal terms : Gandhiji was invited to the 12th RTC if he withdrew the movement.
- ⑤ Paved the way for GOI Act of 1935
- ⑥ While the Civil Disobedience movement was a success, it led the ground for two major events → the solid role of women in freedom and the melt-down of British tyranny in 1947.

Q.13) Mahatma Jyotirao Phule's reformist ideas played a significant role in shaping the social foundations of the Indian freedom movement. Elaborate. (15 marks, 250 words)

महात्मा ज्योतिराव फुले के सुधारवादी विचारों ने भारतीय स्वतंत्रता आंदोलन की सामाजिक नींव को आकार देने में महत्वपूर्ण भूमिका निभाई। सविस्तर वर्णन कीजिए। (15 अंक, 250 शब्द)

Mahatma Jyotirao Phule is a towering personality of social-reform movements in India, especially Pune, having massive ramifications to the social foundation of freedom movement.

### Reformist ideas of Phule

① Establishing the 'frunk' among all

(P.S) He established the 'Satyashilak Samaj'

② Education for all

(P.S) one of the earliest promoters of the modern RTE.

③ Women empowerment

(P.S) Married Savitribai Phule - another stalwart in ~~her~~ women's rights

④ Promoted widows remarriage by associating with Vidhwa Vival Uthya Mandal

⑤ Renouncing Caste discrimination : Openly  
condemned caste discrimination.

### Role in shaping the social foundation

- ① women : Mobilised women through establishing  
education and empowerment initiatives  
for men.
- ② students : through literary works like  
'Gulamgiri', he promoted enlightenment  
of youth to socio-political realities.
- ③ The Marginalised : The social foundation of  
'Swadeshi movement' had much to thank  
to 'caste empowerment' works of M. K. Chelms  
Jyoti Rao Phule.
- ④ The Bourgeoisie : Phule also advocated  
equitable distribution of resources, bringing

the capitalist class into the fold of national movement -

⑤ Religious Harmony : Phule and his wife openly denounced religious hatred and bigotry. It was their effort that led to massive muslim participation in the Non-cooperation khilafat movement.

⑥ Booster of other reformers : From Gopal Hari Deshmukh to Ramkrishna Naikar everyone was influenced by Phule, helping establish a solid social foundation for India's freedom movement.

Phule's legacy continues to thrive as we face the multi pronged challenge of caste and communal ~~at~~ non-coherence today.

Q.14) The interlinking of rivers offers several benefits, but also raises significant socio-economic and environmental concerns. Analyze. (15 marks, 250 words)

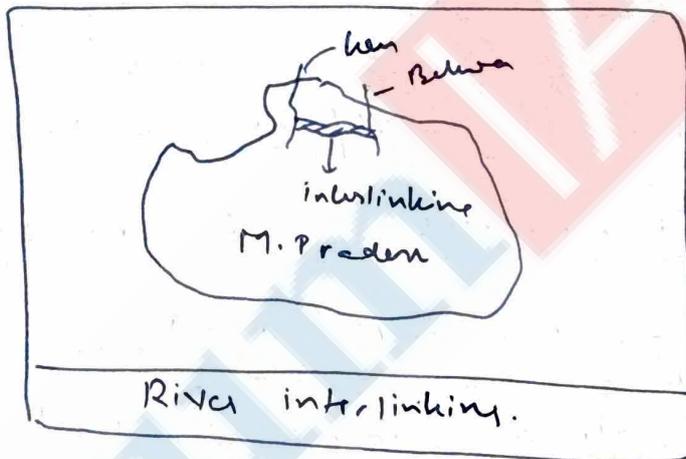

नदियों को आपस में जोड़ने से कई लाभ मिलते हैं, लेकिन इससे सामाजिक-आर्थिक और पर्यावरणीय चिंताएँ भी उत्पन्न होती हैं। विश्लेषण करें। (15 अंक, 250 शब्द)

Interlinking of rivers refers to a mechanism of equitable distribution of water, as exhibited by the recent Kem-Belwa interlinking projects.

### Benefits of Rivers interlinking

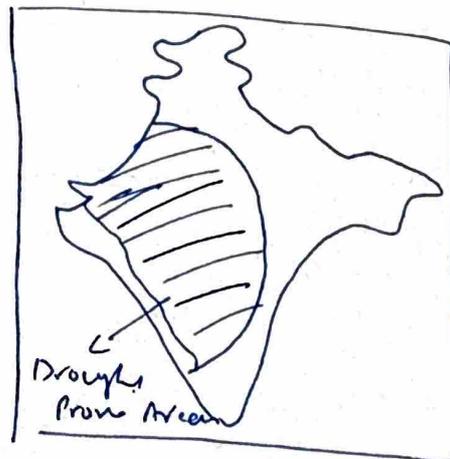

#### ① Accessibility

-> To parched areas like Rajasthan.

#### ② Irrigation Facility : By diverting resources to resource deficit region.

#### ③ Climate Moderation : Availability of water allows for evaporation -> cloud formation -> rain

④ Flood Protection : Excess water diversion creates a room for the rivers as done in Netherlands.

⑤ Hydroelectric Power Generation : (e.g) Dudhwa Dam on the Ken-Betwa Project

⑥ Employment : Such developmental works allows local employment.

Socio-Economic  
concerns

① Discriminatory : For the district whose excess water gets diverted.

② crisis of Resources : may lead to a situation where both rivers run dry.

③ Non-segmentation : Merely interlinking rivers without providing micro-irrigation doesn't address the larger problem of water use inefficiency.

- ④ Excessive reliance on water increases
- ⑤ Federal Unions : Between border states -

## Environmental Concerns

- ① Changes the Ecological Balance : By diverting water, the water level reduces leading shallow marine environment disruption,
- ② River Route Alteration : Reduce flow of water may alter geomorphology downstream
- ③ soil quality → May reduce with decreased supply of silt
- ④ Climate change → May exacerbate due to lack of moisture.

Need is to include 'stakeholders' in such projects with stringent [EIA] application and ~~set~~ adherence to federal principles.

Q.15) Explain the concept of rain shadow effect. How does it influence the distribution of precipitation and vegetation across mountain ranges? (15 marks, 250 words)

वर्षा छाया प्रभाव की अवधारणा को स्पष्ट कीजिए। यह पर्वत श्रृंखलाओं में वर्षा और वनस्पति के वितरण को कैसे प्रभावित करता है? (15 अंक, 250 शब्द)

Rain shadow effect : Breaking down the terms, it means a shadow created due to lack of rain, similar to a shadow created when there is lack of sunlight.

Illustration :

When a moisture carrying wind is obstructed by a mountain,

The wind rises, cools down and causes heavy rain on the 'windward side' of the mountain, but minimal rain on the 'leeward side'.

Why? -> Because the descending dry air on the 'rain shadow' region has no moisture.

This is called the Rain shadow effect!

## Impact on the distribution of Precipitation & Vegetation

Since Precipitation & Vegetation are interlinked, we will see them together.

① Heavy Rainfall → Heavy Evergreen Vegetation

(e.g.) The Western Ghats records > 200cm of rainfall due to (rain shadow effect).

(e.g.) Similarly, the Meghalaya, the wettest place on Earth, gets rain due to the Garo Khasi Jaintia obstructing Monsoon Windy.

① Low rainfall → Desert environment

→ The Rain shadow region of Patagonia desert in South America

→ The rain shadow region of "Mojave" desert in North America -

Vegetation included → Yucca, Palm, Betul, Thorny scrub etc.

② Intermediates rainfall: Sometimes there are gaps in the mountains that allow some wind to pass, giving the rain shadow region some rainfall.

(e.g) The rainshadow region of South Africa across the Drakensberg mountain.

Even some regions of Tibet.

So, the rain shadow effect explains the presence of 'Teak, Sal, Berberis' in some areas, 'Mahogany' in some areas & Thorny Betul in some areas.

Q.16) Bring out the major features of the Indian monsoon and elaborate upon its causative factors. (15 marks, 250 words)

भारतीय मानसून की प्रमुख विशेषताएँ बताइए तथा उसके कारकों का विस्तृत विवरण प्रस्तुत कीजिए। (15 अंक, 250 शब्द)

More than 80% of Indian rainfall is due to Monsoon.

### Features

Etymology: Monsoon comes from Arabic 'Mausam' which means season.

Duration: It arrives in July in Kerala first and retreats around September.

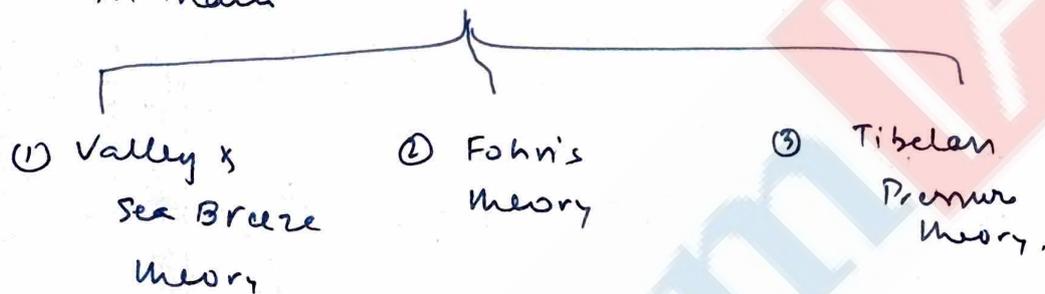

Rainfall Pattern: Heavy rainfall in the windward side of the Western Ghats, on the windward side of Garo Khasi Hills and Arakan Yoma in Myanmar.

Rainfall also reaches eastern India like Bihar & UP via the Purvaiya since the deflection of South-west monsoon becomes South-East Monsoon.

Rainfall also reaches the Arabian sea  
coast of Gujarat & Maharashtra producing  
plenty of rainfall.

### Causative Factors

Multiple theories on the creation of monsoon  
in India

While all theories have elements of truth, the  
actual process involves all of them.

### Factors

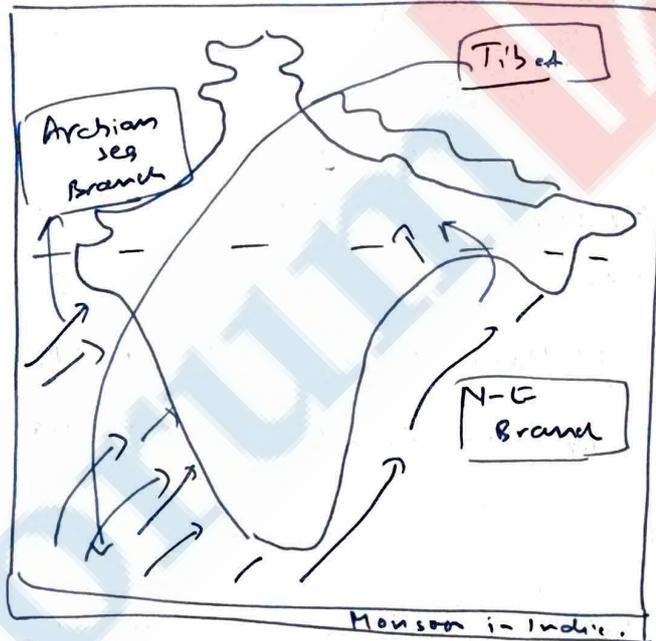

- ① Summer Heating : In summer, the Indian  
plate is on the tropic of cancer, getting  
very direct sunrays and thus gets  
heated up. → Low pressure is created.

② Tibetan Heating: The Tibetan also gets heated leading to ~~rise~~ rising air.

③ Slow heating of the ocean: The ocean (Indian) doesn't get heated as quick as the land and thus high pressure remains over the ocean.

④ High Pressure

-> due to Tibetan Jet stream  
 -> due to low heating develops on the Indian ocean which travels towards India because there is low pressure over peninsular India.

⑤ The Coriolis Force: Makes the wind move towards right -> causing South West Monsoon

Monsoon in India, now impacted by El

Nino needs to be protected to ensure food security & SDG 1.

Q.17) What are the geographical factors responsible for the growth of mangrove vegetation in India? Also highlight its role in coastal ecology. (15 marks, 250 words)

भारत में मैंग्रोव वनस्पति के विकास के लिए उत्तरदायी भौगोलिक कारक क्या हैं? तटीय पारिस्थितिकी में इसकी भूमिका पर भी प्रकाश डालें। (15 अंक, 250 शब्द)

As per the recent Indian State of Forest Report 2023, the mangrove area has reduced by 7.43 sq. km indicating its preservation necessity to ensure coastal stability of ecology.

### Geographical Factors Responsible

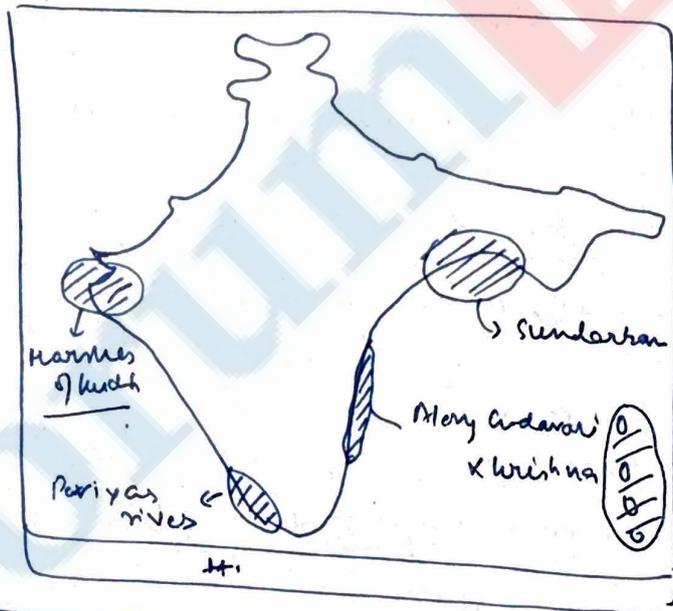

- ① Delta Formation: Rivers that form delta carry silt and clay that provides germinating grounds for Mangroves.
- ② Long Rivers: Longer the river, higher the amount of sediments.
- ③ Sea level changes: Allows  pneumatophores to survive during times of high tide.
- ④ Climate: Need a sub-tropical climate.

② Soil : Alluvial inundated soil with ample availability of water.

: softer clayey soil that allows roots to penetrate.

③ Human Geography : Reserving autonomy of tribals who take care of mangroves and are responsible for their growth.

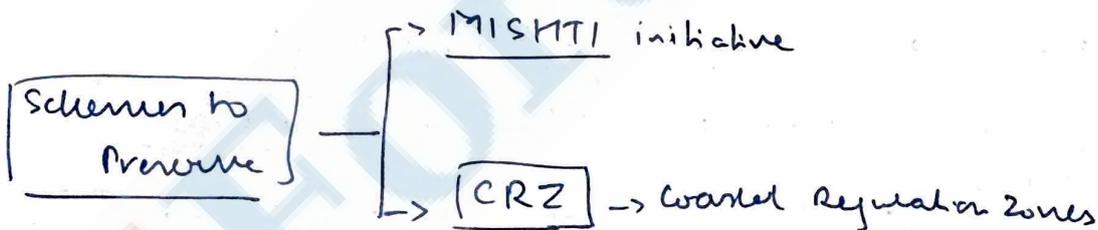

Mangroves in India

Role in Coastal Ecology

① Biodiversity : Germinates numerous prokaryotes. Habitats for fishes & amphibians

- ② Coastal Protection : Acts as a buffer absorber against tsunamis or cyclones.
- ③ Carbon Sequestration : Acts as a source of carbon absorption.
- ④ Used as source of tidal energy
- ⑤ Maintains sea surface temperature : Regulates spikes in [SST] of the Bay of Bengal.
- ⑥ Promotes development of corals : Along the coast of [Kerala] or [Andaman]

We can take examples of 'Mekong Mangrove Project' and combine with [MISHTI] to ensure the preservation of this ecological watchdog.

Q.18) To what extent can the rise of 'Kidfluencers' be seen as a reflection of changing family structures and parental aspirations in Indian society? (15 marks, 250 words)

किडफ्लूएंसर्स के उदय को किस हद तक भारतीय समाज में बदलती पारिवारिक संरचना और अभिभावकों की आकांक्षाओं के प्रतिबिंब के रूप में देखा जा सकता है? (15 अंक, 250 शब्द)

The 'inherent' cuteness of kids and the social 'eyeballs' it gathers have raised an army of Kid-influencers in our midst. It

is a reflection of two major issues.

Changing Family Structures

Parental Aspirations

Kidfluencers: As a Reflection of Changing Family Structures

'Pierre Bourdieu' -> gave the 'Cultural Capital theory' which says about the role of culture as a capital. The role of children as a capital for families indicate or proves this theory.

Reflections

i) Working Parents: Not enough time for children leading to children engaging

in social media influencing.

ii) Accessibility : Families today allow minimal deprivation of gadgets and internet for the well mental being. children use them for content creation.

iii) Competition : Families are hypercompetitive now when it comes to children due to more social media visibility.

iv) Quick but unsteady choices : Families now prefer quick fix solution.

(P.S) child cuddling now replaced by ipads

## Parental Aspirations

① Earning Potential : Through social media influencers business.

② Popularity : Parents aspire to gain popularity through kids.

③ Parents also aspire for kids to emulate content that generates interactions.

④ Ahead of the curve : Parents aspire to show their moral superiority through realistic & progressive content.

However, this rise in kid influencers can be seen through other lenses as well

- ① Social media apps : Their promotion of viral contents contributes to rise of kid influencers
- ② Monetization : Invites more participation.
- ③ Lack of Recreational space : Post school time gets spent in mindless scrolling.
- ④ Book reading : Extinct now a days
- ⑤ Promotion of sports : Lack of much promotion discourages activity.

For this issue to subside, a combined effort from parents, society and government should be made. Example of Australia where social media is banned for kids is exemplary.

Q.19) Women often form the backbone of grassroots movements in India, yet they remain largely invisible and excluded from the decision-making process. Examine. (15 marks, 250 words)

भारत में महिलाएँ अक्सर धरातलीय स्तर के आंदोलनों की रीढ़ बनती हैं, फिर भी वे काफी हद तक अदृश्य रहती हैं और निर्णय लेने की प्रक्रिया से बाहर रहती हैं। परीक्षण करें। (15 अंक, 250 शब्द)

The SHAs and Anganwadi complex in

Kavri district of Karnataka is run by female

guided by a female IAS - Ms. Uma Mahadevan

→ indicating a cementation of the fact that 'women form the backbone of grassroots movement in India'

But, there is an invisibility in decision making process.

Exhibits

Pradhan Pati System

1 out of 5 boardroom directors are women, a low number

LFMR → only 37%. Compared to global average of 65%.

## Why the Invisibility & Exclusion : From Decision Making

- ① Patriarchy : Not allowing women to even speak in some areas.
- ② Education divide : Women's literacy rates remain around  $\approx 10\%$  lower than men.
- ③ Stereotype : Prejudices of women not being good leaders & decision makers.
- ④ Lack of Role Models : Except the few like Ela Bhatt and Sarajini Naidu there are not many to look forward to.
- ⑤ Elders dominance : Women are often shy or forced to be silent in front of elders due to seniority.
- ⑥ Lack of Activism : Women groups are often suppressed by their husbands from making any objection to status quo.

But the scenario is changing

→ 1 lakh Lakhpati Didi beneficiaries involved in SHG activities.

→ Sumina .Dev Buman → Environmental stewardship → Stork sisters

→ Jal Sathi → In Bundelkhand,

How → i) Women led development.

ii) SHG Bank linkages → making women financially empowered.

Way ahead → i) To involve women in decision making we should → Promote their education

→ Popularise Role Models

→ Financial Independence → SHG

→ Statutory support → Reservation for women in LS & State Assembly

→ Reducing Digital Divide

SDG 5 orders are explicit in this regard.

As Nehru said - "When women grows, the nation grows"

380500\_811413\_1910150052\_(2025-07-21\_15:34:11)  
Q.26) Do you agree with the view that social media is a 'double edged sword'? Discuss in the context of its impact on Indian society. (15 marks, 250 words)

क्या आप इस विचार से सहमत हैं कि सोशल मीडिया एक 'दोधारी तलवार' है? भारतीय समाज पर इसके प्रभाव के संदर्भ में चर्चा करें। (15 अंक, 250 शब्द)

Social media is an agent of socialisation. It when becomes an agent of exploitation is when it becomes harmful. The Netflix show 'Adolescence' has beautifully explored one of its many vagaries.

### Positive of Social Media

- ① Globalisation: connecting people, making the world smaller.  
 (e.g.) Artisans of Kutch selling Ajrakh prints to Seoul
- ② Awareness: women empowerment and in education as concepts have penetrated the smallest of homes.
- ③ Education: Has democratised education making guidance free & accessible.

380500\_811413\_1910150052\_(2025-07-21 15:34:11)

④ Govt. Reach : Through e-governance, govt. awareness campaigns has reached the last mile.

(P.S) Ministry of Panchayati Raj Collaborating with TV Series 'Panchayat'.

⑤ Income : social media has largely reduced the urban-rural divide leading to a melting pot through earning potential.

But, there are downsides

① Virality and Misinformation : Breaking the social fabric of Indian society.

(E.g) Non-violence in Gurugram.

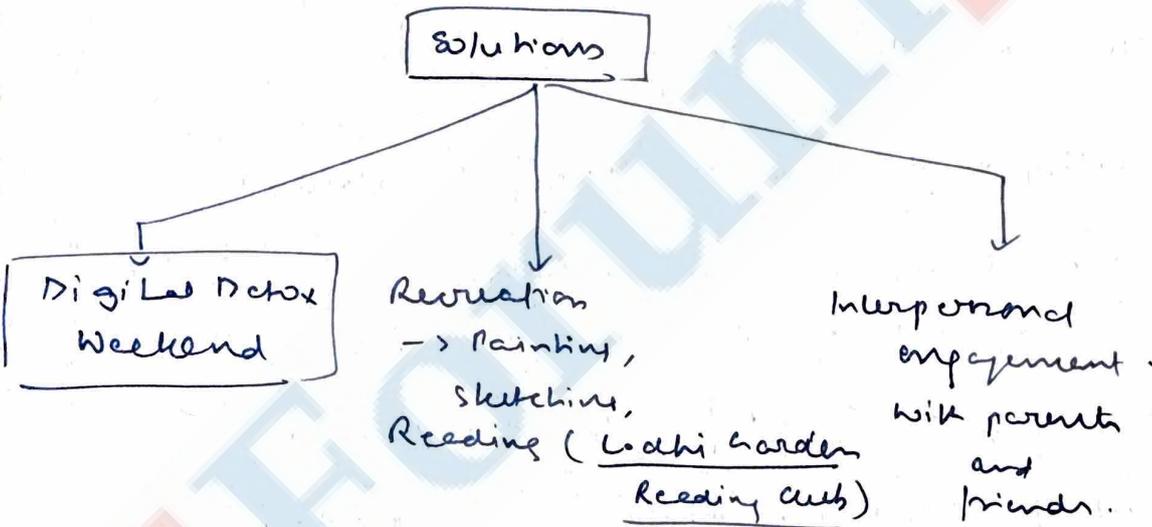

② Inequality on Parade : The social media clout of 1200 crore - spent on a wedding exposed glaring social inequality.

③ Criminal Activity : Sex trafficking, murders, digital avare are all ill effects of constant social media presence.

④ Dwindling interpersonal relations : Personal distance and digital proximity from parents and friends.

⑤ Learning Deficit : social media promoted GPT now reduces children's cognitive abilities and .

⑥ Mindless Addiction : Reduces physical abilities to think and act. Oxford call it 'Brain Rot'

Social media is a boon or a bane is upon its users but, right now, its ill effects can't be overlooked. Need is to have a balanced use that promotes growth without deprivation
