## EXAMINER'S REMARKS

---

### CRITERIA FOR THE FEEDBACK SECTION AT THE END OF EACH QUESTION

1. **AWIS = Answered What is Asked.** This means whether you have addressed the core demand of the question or not. Addressing the core demand of the question gets you an objectively fair score. It is examiner's perception if you have understood the question and if you know the answer in the first place. Creative answer writing, sometimes missing the core demand, may fetch very high or very low scores, and exposes your answer to the subjectivity of the examiner.
2. **CD & VA = Content Density & Value Addition.** Examiner will evaluate the quality and quantity of your content in the answer. In the same word limit and space limit have you (a) written what is asked (b) gone beyond what is asked (c) enriched answers through combination of ( but not all!) suggestions, ideas, quotes, flowcharts, diagrams, facts and figures, data etc. This affects objective components of assessment.
3. **S & F = Structure & Flow** = Whether you have structured your answer properly or not. Whether the answer has been broken into parts and sub-parts and each part has been addressed appropriately or not. Whether the flow of the answer is maintained. Affects both subjective and objective components of assessment.
4. **P & R** = How your answer performs on the criteria of **presentation, ease of read, clarity and apparent effort** in writing the answer. This affects the subjective components of assessment.

**Instructions: All questions are compulsory. The number of marks carried by a question/part is indicated against it. Quality of the answer is more important than the length of the answer.**

निर्देश : सभी प्रश्न अनिवार्य हैं। प्रत्येक प्रश्न द्वारा धारित अंकों को उसके सामने इंगित किया गया है। उत्तर की गुणवत्ता उत्तर की लंबाई की तुलना में अधिक महत्वपूर्ण है।

must be the brain of the nation.

[DS] Deputy speaker acts as the interim speaker when the main speaker is absent. She enjoys all powers of the speaker in that instance.

---

DS goes beyond ceremonial significance and is indispensable

---

- i) Constitutional provision for Deputy Speaker - instituted in Art 93 itself.
- ii) Not secondary to speaker
  - ↳ Equal powers when acting as speaker
  - ↳ Normal MP otherwise
- iii) She can vote in 1<sup>st</sup> instance itself.
- iv) Gives voice to the opposition
  - ↳ DS from opposition party by convention

- v) All ~~power~~ privileges also provided
- ↳ Regular privileges [Art 105, 194]
  - ↳ Speaker's privileges [Art 93, when acting as speaker]

vi) Becomes more critical in a coalition government → active role of in debates and discussions.

### Implications of prolonged vacancy

- It is a sign of ruling party's dominance
  - ↳ as Speaker decides election of DS
- It affects the constitutional morality of the parliament.
  - ↳ prevents critique of the government
- Misuse of leader of opposition Act, 1977
  - ↳ 10% rule used to disallow opposition (Malvern's rule)

and its personnel [leader of opposition, Deputy speaker etc].

iii) Many committees lose ex-officio leader [headed by DS by default].

↳ (eg) Parliamentary standing committee

### Needful Improvements

- i) Recognize opposition despite 10% rule
- ii) Set time line for DS election
- iii) Ensure healthy debates
- iv) Assign set days for DS to head the <sup>lok Sabha</sup> parliament with opposition leading the agenda.

Hence, Deputy speaker must become the instrument of ensuring parliamentary discipline and balance.

14

India has roughly 880 million internet users, the 2nd largest global user base, as per TRAI.

### Demand for stricter regulation

- i) To prevent radicalization and hate speech, cautioned in Anusha Dargan case.
- ii) Uphold national security and sovereignty. (Eg) Control recruitment by terrorist groups.
- iii) Ensure privacy of people, as per (Puttaswamy case).
- iv) Protect children from harmful content. (Eg) Pornography.
- v) Protect women from online trolling.

doxxing etc as per Joseph Stine case

vi) Also necessary for environmental protection - Chat GPT can be 10x harmful than a Google search - hence aligns with M C Mehta case.

But regulation poses a threat to freedom of speech an expression

- ① Direct challenge to Anuradha Bhasin case that provides right to internet.
- ② Similarly against Fahema Shirin case as online access part of right to life
- ③ No internet = less employment, that violates judgement under Olga Tellis case.
- ④ It challenges continuous access to

healthcare, provided in Bandhua Mukti Morcha Case.

⑤ Also against right to education, as per Unnikrishnan Case. (Eg) Online education disruptions.

### Solutions

① Restrictions must follow doctrine of proportionality

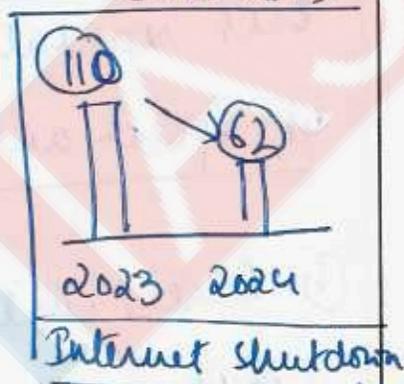

② Shut downs only as last resort.

③ Self regulation by platforms  
↳ Meta's Telem profiles.

④ Filters for explicit content  
- # Ad, # Sponsored for influencers.

Hence, ~~India~~ <sup>we</sup> cannot smother innovation by restricting online access, as it has become indispensable.

The Supreme Court [SC] has the power to conduct inquiries of misconduct, which is an extension of Art-142 (plenary jurisdiction)

In-house procedures

(i) Benefits

- a) fast process
- b) SC aware of its own rules and conventions.
- c) Ensures separation of powers [Art-50]
- d) SC is the ultimate interpreter and guarantor protector of constitution and the laws.
- e) Such independence upheld in NJAC case, (4<sup>th</sup> Judges case).

b) Also part of Basic Structure [Independence of judiciary]

### Challenges

- i) Allegations of bias and favouritism.
- ii) SC does not follow accountability to others but keeps all others accountable to itself.
- iii) Such behaviours also seen in other instances -
  - i) Contempt of Court powers
  - ii) Appointment Collegium
- iv) Against natural justice
  - ↳ cannot judge case of self
  - (Eg) ex CJI Gogoi allegedly mishandled sexual misconduct cases.
- v) SC lacks executive power, removal powers. (Eg) Recent Delhi High Court

judge found with cash could not be removed until Parliament convenes

### Way forward

- i) Supreme Court must allow outside point of view.
- ii) Collegium system to adjudge internal cases - instead of CJI (Chief Justice) directing the proceedings
- iii) In democracy, public should be ultimate decision makers - also related to judicial issues.

Hence, need is to dilute SC's powers of self-guided procedures while also ensuring SC's independence and integrity.

Malpractices were alleged such as the Delhi elections where parties questioned removal of supporters from the <sup>electoral</sup> roll.

Aadhaar linkage can be a solution to mitigate this

Benefits of Aadhaar linkage

- i) Uniqueness maintained - reduced redundancy and duplicacy.
- ii) Faster updation - using Aadhaar e-KYC.
- iii) Automation - reduces manual errors.
- iv) Reduces politicization  
↳ Parties cannot use untrue documents to force removal by election commission [ECI]

But also creates challenges

i) Data privacy issues

↳ leaked Aadhaar data in 2024.

ii) Fake Aadhaars also seen

↳ Multiple IDs for same person

iii) breaches right of privacy also

↳ Forced linkages may be used to  
achieve 100% coverage

iv) Digital Divide creates issues.

↳ Not all have linked Aadhaar

↳ Inclusion - Exclusion error

v) Does not solve problems of migrants  
and digital nomads.

↳ Still on old <sup>electoral</sup> rolls of home town only

Solutions

i) voluntary linkages - option to opt out

ii) Awareness drives by ECI

↳ Urge people to update ~~their~~ their status

iii) For changes : Need minimum 2 people to verify changes

iv) Technology : → Encryption

↳ to ensure updated voter sheets

↳ Blockchain [used in West Virginia]

↳ Online voting

v) Political maturity : parties must not indulge in lowly tactics

Hence, electoral integrity requires the ~~a~~ holistic support of voters and parties alike to ensure 'One vote, One value'

Lateral Entry aims to recruit people from private sector at mid and high level in bureaucracy [generally at Joint Secretary]

### Reformative Step

- Benefits
- i) Private sector expertise
  - ii) Necessary for poly crisis  
(Eg) Digital, Defence field.
  - iii) Creates healthy competition
  - iv) Reduces bureaucratic inertia and cholesterol.
  - v) Recommended by Baswan Committee
  - vi) Ensures right-sizing.

(Eg) Only ~ 450 IAS at centre level

## Way forward

### (A) Promote from within

↳ i) Leverage experience of 20+ years of the officers

↳ ii) Their on-field insights must be valuable for policy making.

↳ iii) Correct incentives and appraisals for ensuring right matches for the role.

### (B) Supplement + Complement from outside

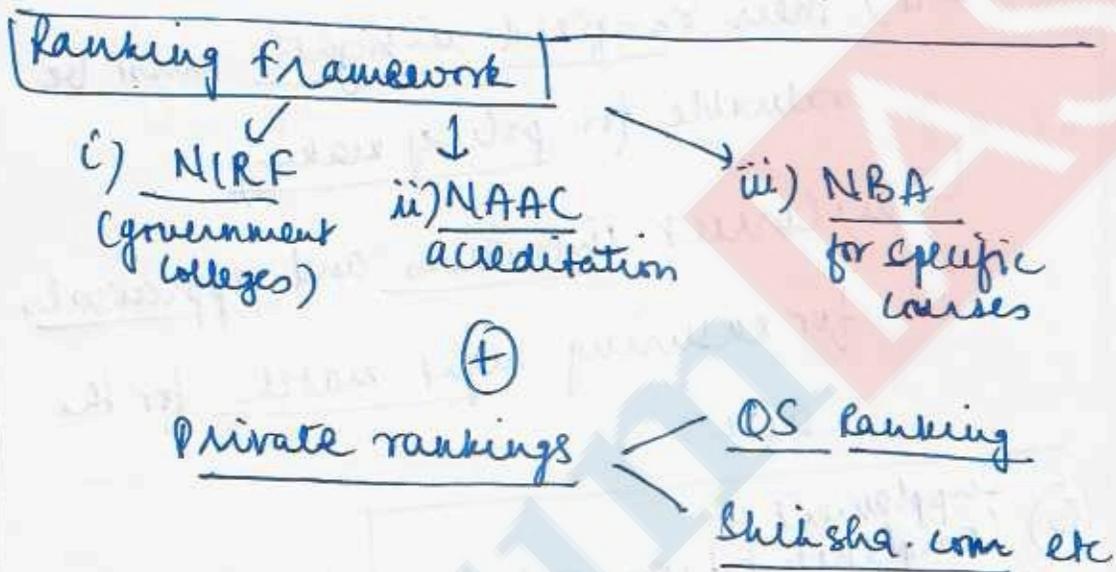

↳ i) New areas, novel areas can have lateral expertise. (Eg) AI/ML

↳ ii) Thorough vetting and background clearance.

Hence, the iron frame of democracy must prevent getting rusted by regular maintenance.

(18)

Rankings such as NIRF have been used to create competition among HEIs and increase overall quality of education.

CONCERNS of current ranking

- i) Do not reflect goals of education
- ↳ focus on → i) placements
- ii) scores/percentages
- ↳ Rote Learning rewarded.

ii) Less focus on life skills, vocational education.

iii) 'One size fits all' approach.

(Eg) Same method for Arts and Science colleges.

iv) 'Buying' of ranking: Sponsored colleges with higher ranks.

v) Inflation of metrics

(Eg) 1 cr + packages

Suggestive Measures to make the ranking system more:

(A) Objective → i) Multiple tests to ensure validity and reliability of results

ii) Machine based: Test of students on online portal to judge outcomes.

iii) No money transactions allowed

- (B) Inclusive → i) Increase coverage of IT?, private colleges, unaffiliated colleges
- ↓
- ii) Prevent opting-out of colleges.
- ↓
- iii) Customize ranking methodology based on pedagogy

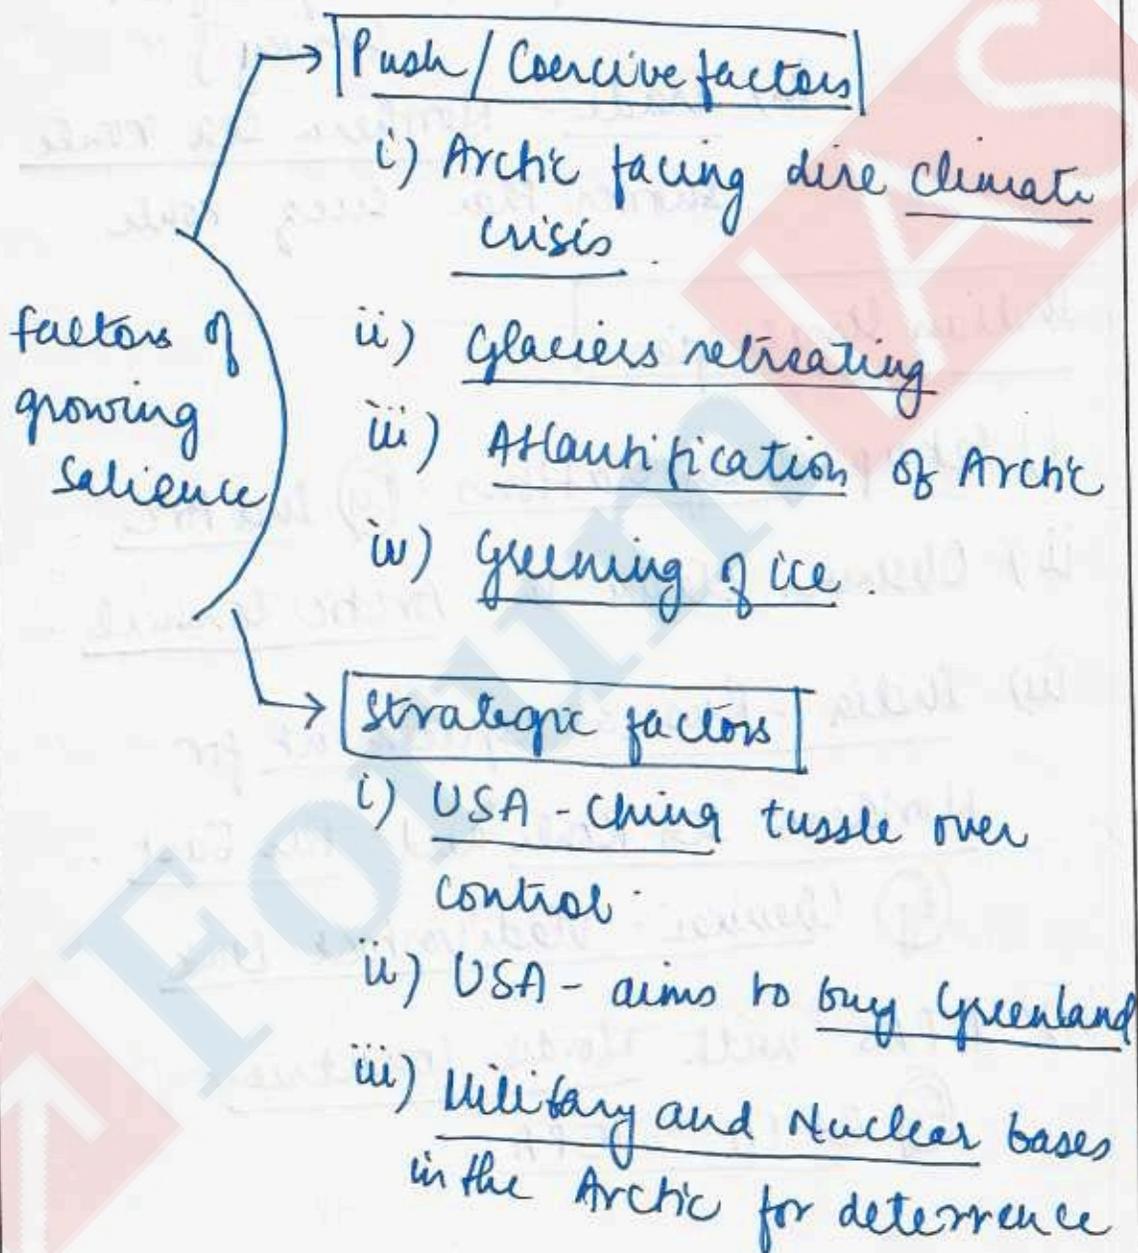

- (C) Educational outcomes → i) align scoring parameters with the New Education Policy
- ↓
- ii) Industry opinion must be added.
- iii) Check for life skills also. (Eg) Creativity

- (D) Societal outcome → i) Ethical parameters needed
- ↓
- ii) Inclusive research (to women, dalits)
- iii) Alignment with social demands must be assessed also.

Hence, ranking of colleges should create a 'democracy-centric' education system

Arctic region generally refers to the area above the  $0^{\circ}\text{C}$  isotherm, surrounding the Arctic Ocean.

Factors of  
growing  
salience

→ Pull factors

i) Mineral and Oil wealth

13% oil + 30% natural  
gas [US Geological  
Survey]

ii) Trade - Northern sea route  
shorter than Suez route

Indian strategies

i) Set up study stations - (Eq) Ind Arc

ii) Observer status in Arctic Council

iii) India - Russia agreement for  
Northern sea route and Far East

(Eq) Chennai - Vladivostok link

iv) ITAs with Nordic countries

(Eq) EFTA - TEPA

## But not enough

- i) still not able to access methane clathrate - rates
- ii) looming climate crises
- iii) Not part of decision making body of Arctic Council.

## Way forward

- i) More FTA, Bilateral Treaties
- ii) Continue climate change fight - UNFCCC
- iii) Resource planning - Supply Chain Resilience
- iv) Extend Deep Ocean Mission to Arctic
- v) Leverage High Seas Treaty of UNCLOS to get access.

Hence, Arctic region will become the key to new riches necessary for the multipolar tomorrow.

(20)

India celebrates 10 years of the Neighbourhood first policy but it is marred by conflicts in Bangladesh, Myanmar and others

### Bangladesh - Key pillar

- i) Largest border - 4000 km.
- ii) Largest trading neighbour - \$20 billion trade
- iii) Cultural similarities of Bangladesh and West Bengal.
- iv) Historical ties - Indian Army + Mukti Bahini
- v) Projects → Chattogram + Mongla port  
→ Godda port for electricity sharing.  
→ Agartala Akhaura rail link
- vi) Border Exchange - 100th CAA

## Recent disruptions

- i) Sheikh Hasina (India's good partner) usurped
- ii) Anti India sentiment of the interim government.
- iii) Religious persecution of Hindus.
- iv) India retaliated → suspended  
↓ a) Maitri Express  
b) stopped Transshipment access to Bangladesh

## Other changes made

- i) tightened security along border  
↳ BOLD-QIT, CIBMS (border management tools)
- ii) Prevention of illegal trade  
↳ double of legitimate trade

iii) Integrated check posts at Suttarkandi  
+ Ghajadonga as alert

### Needful solutions

i) Discourse at multiple levels

↳ border DMs [Magistrates] to  
PMs [Prime Ministers].

ii) Put behind old issues and move  
beyond 1971 war.

iii) Leverage Act East policy + Gujral  
Doctrine → magnanimity towards neigh-  
-bours.

iv) Build back together - India can help in  
elections, finance, education, techno-  
logy. (Eg) UPI.

Hence, India - Bangladesh must align the  
goals of Viksit Bharat (at 2047) and Smart Bangladesh (at 2049)
