(This section contains a large, faint watermark reading 'SAS' diagonally across the page.)

CRITERIA FOR THE FEEDBACK SECTION AT THE END OF EACH QUESTION

In the same word limit and space limit have you (a) written what is asked (b) gone beyond what is asked (c) enriched answers through combination of (but not all!) suggestions, ideas, quotes, flowcharts, diagrams, facts and figures, data etc. This affects objective components of assessment.
3. **S & F = Structure & Flow =** Whether you have structured your answer properly or not. Whether the answer has been broken into parts and sub-parts and each part has been addressed appropriately or not. Whether the flow of the answer is maintained, Affects both subjective and objective components of assessment.
4. **P & R =** How your answer performs on the criteria of **presentation, ease of read, clarity and apparent effort** in writing the answer. This affects the subjective components of assessment.

(15 अंक, 250 शब्द)

Various groups like MKSS,

Q.14) Why does India's agricultural export performance remain weak despite high production levels? What measures would you suggest to improve agri-export competitiveness? (15 marks, 250 words)

उच्च उत्पादन स्तर के बावजूद भारत का कृषि निर्यात प्रदर्शन कमजोर क्यों है? कृषि-निर्यात प्रतिस्पर्धात्मकता में सुधार के लिए आप क्या उपाय सुझाएंगे? (15 अंक, 250 शब्द)

India's export of Agriculture produce occupies merely 2.4% of total trade, despite being largest producer of milk, fruits, vegetables, food grains etc.

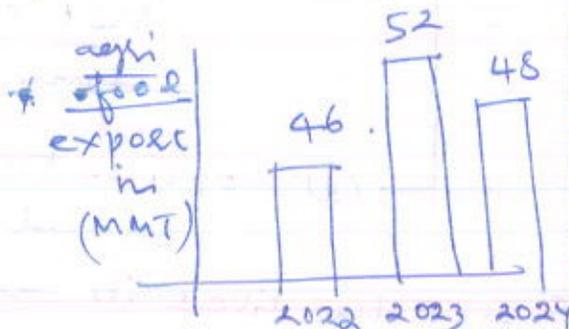

Why Agri. exports performance remains weak despite high production level

— struggles at just 23% even after decade.

4. high wastage

(ex) 1,52,790 cr surplus of food
grain wastage ↓

5. lack of standard export quality assessment

(eg) Participatory Guarantee scheme is not recognized by EU; while IPOP - integrated prog. on organic prod. — is recognized.

6. increased NBT: non-tariff barriers like SPS - sanitary & phytosanitary standards (or) CBAM

7. uniform standards of quality like grading, polishing, branding

8. lack of value addition to the primary produce.

- Measures to Improve
- ① standardise organic processing standards.
 - ② negotiate bilaterally
→ EU, USA, UK-CETA*
 - ③ promote exports at South Asia & South East Asia
 - ④ cold storage and warehousing - capacity
just 37 MT capacity
 - ⑤ FPOs → for bargaining power and economies of scale
 - ⑥ relook at corporate farming to address fragmented farming
