EXAMINER'S REMARKS

CRITERIA FOR THE FEEDBACK SECTION AT THE END OF EACH QUESTION

1. **AWIS = Answered What is Asked.** This means whether you have addressed the core demand of the question or not. Addressing the core demand of the question gets you an objectively fair score. It is examiner's perception if you have understood the question and if you know the answer in the first place. Creative answer writing, sometimes missing the core demand, may fetch very high or very low scores, and exposes your answer to the subjectivity of the examiner.
2. **CD & VA = Content Density & Value Addition.** Examiner will evaluate the quality and quantity of your content in the answer. In the same word limit and space limit have you (a) written what is asked (b) gone beyond what is asked (c) enriched answers through combination of (but not all!) suggestions, ideas, quotes, flowcharts, diagrams, facts and figures, data etc. This affects objective components of assessment.
3. **S & F = Structure & Flow =** Whether you have structured your answer properly or not. Whether the flow of the answer has been broken into parts and sub-parts and each part has been addressed appropriately or not. Whether the flow of the answer is maintained. Affects both subjective and objective components of assessment.
4. **P & R =** How your answer performs on the criteria of **presentation, ease of read, clarity and apparent effort** in writing the answer. This affects the subjective components of assessment.

Q.1) To what extent, in your opinion, Self-Help Groups (SHGs) in India have enabled women led development at the grassroots level? (10 marks, 150 words)

आपकी राय में, भारत में स्वयं सहायता समूहों (SHGs) ने जमीनी स्तर पर महिलाओं के नेतृत्व वाले विकास को किस हद तक सक्षम बनाया है? (10 अंक, 150 शब्द)

Self Help group - "People coming together for a common cause". In words of Honourable PM,

"SHG should be transformed into National-Helpgroup"

This emphasises role played by SHG in Nation's development

Role of SHG in Women led development

↓
Power within

↓
Power to

↓
Power with

Power within → @ Individual level → Women Empowerment

① Human development - By Better access to skill-education and health opportunities (eg) MMR decreased From 132 to 97/100000 (2019 Report)

② Innovation and entrepreneurship - Job seeker to Job maker (moving out from traditional roles to economic participation)

Power to → By political and economic participation

① Women Representation has increased leading to women centric policy making (eg) SHG Amplify voice of Women as stakeholder - "Gender Budgeting"

② economic participation and reduced dependency

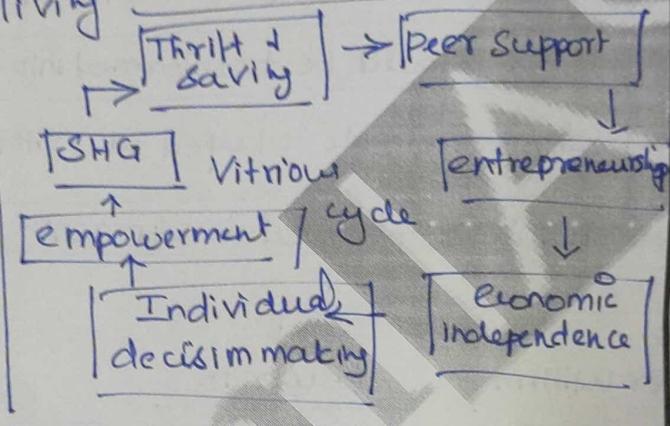

Better opportunities (Individual decision making)

Power with \rightarrow Inclusive development \rightarrow poverty reduction

and Better standards of living

Case Study - Kadumshree

Kerala based SHG -
Started as mere small group to now working with PRI institutions + expanded Footprint -
Pulled out about 20 lakh women from poverty

Social Barriers

- ① patiparchal mindset - Not much support to women
- ② Gender role Burden - women on average spend 8 hours on household chores

Institutional Barriers

- ① Discrimination \rightarrow Role of dominant caste within SHG
- ② No frequent meeting
- ③ Financial constraints \rightarrow loan

Challenges SHG Not Much effective in women development

Market Barriers

Q.2) Narrow understanding of disability has marginalised people suffering from mental disorders. Elucidate. (10 marks, 150 words)

दिव्यांगता की संकीर्ण समझ ने मानसिक विकारों से पीड़ित लोगों को हाशिए पर डाल दिया है। स्पष्ट कीजिए। (10 अंक, 150 शब्द)

Disabled people constitutes around 2 crore in India (2011 census). Disability often considered as physical inability marginalising mentally disordered persons.

How Narrow understanding leads to marginalisation

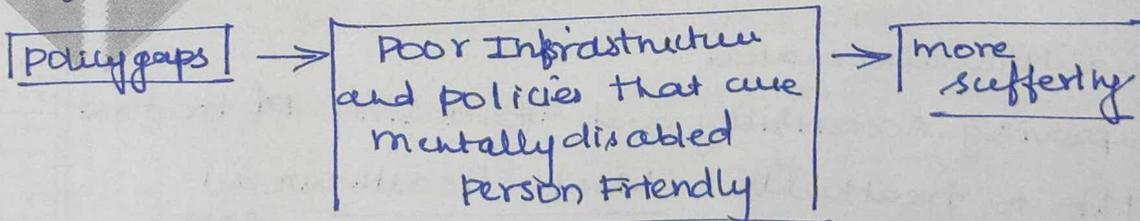

① @ Family level — left without much care and leading to 'victimisation' and 'stigmatisation' of mentally disordered persons (eg) Alcoholism not considered as mental illness → depriving treatment → more suffering

② Non - Inclusive governance systems

▷ No proper data and understanding of mental disorders (data gaps and policy gaps)

▷ Insensitive government functionaries towards their needs

③ Criminalisation of act of Begging — But mostly they are people left without care due to mental illness

③ Economic dependency and poorly Funded
and Institutionalised disabled Friendly Homes due to
(Narrow understanding)

④ emphasis of Individualism → dysfunctional family
leading to Anomie and law and order and suicide
issue
effect of urbanisation and globalisation on children

⑤ NO Institutional policy convergence to tackle
mental illness

⑥ During COVID - mental stress due to lockdown was
higher "Silent pandemic"

Thus poor understanding leads to marginalisation

Wayforwards - ① data driven policy making

NIMHANS (Karnataka Based) Institute Studying
mental illness to survey and provide holistic understanding
of disability

② Awareness Creation to citizen and government
Functionaries

③ creation of Homes and regulating private Homes
for Quality maintenance

④ Improving Accessibility and Affordability of treatment

Q.3) Ayushman Bharat Digital Mission (ABDM) addresses the need for interoperability in health services through a unified health interface. Elaborate its significance in digitising the health care ecosystem. (10 marks, 150 words)

आयुष्मान भारत डिजिटल मिशन (ABDM) एक एकीकृत स्वास्थ्य इंटरफेस के माध्यम से स्वास्थ्य सेवाओं में अंतर-संयोजन की आवश्यकता को संबोधित करता है। स्वास्थ्य देखभाल पारिस्थितिकी तंत्र को डिजिटलाइज करने में इसके महत्व को स्पष्ट कीजिए। (10 अंक, 150 शब्द)

Ayushman Bharat digital Mission (ABDM)

Integrate health care providers, health care data and citizens for seamless accessibility towards Quality health care.

Need For Interoperability in Health care

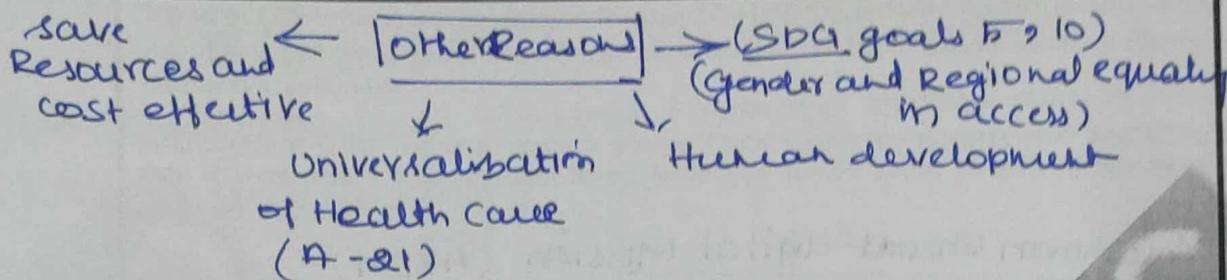

① duplication of test - By various Health care providers

↳ Increased cost - Reducing Affordability

② Shortage of doctors - > less than WHO standard
1:1000 Vs India - 1:1436

③ Telemedicine - To make Quality health services in Remote areas as tertiary health care is concentrated in Urban Areas [Inverted health care Institutions ∇ Primary Health centre centres]

④ In sync with Digital India mission and Benefiting Citizens by accessing Health records any Where - Improving operability between Hospitals

ABDM + its Significance :-

- ① Improving availability of Healthcare opportunities at affordable rate - [Reducing travel charges and time visiting hospitals]
- ② early diagnosis of diseases - Reduced DALY [disability adjusted years of living]
- ③ upright structure of Healthcare Institutions - as ABDM Improves Accessibility of Primary health centres.
- ④ Unified Record - leading to efficiency + effective Service delivery
- ⑤ Address manpower shortages in Healthcare especially in rural Areas
- ⑥ Improve affordability to poor in accessing expert consultation - [Reduced social spending by poor (out of pocket expenditure)] - ↓ Poverty Incidence.

Thus ABDM act as stepping stone towards "Health services For all" in achieving goal ③ in Sustainable development goals.

Q.4) Assess the relevance of lateral entry in civil services in making the governance structure more effective, efficient, and people oriented. (10 marks, 150 words)

शासन संरचना को अधिक प्रभावी, कुशल और जनोन्मुख बनाने में सिविल सेवाओं में लेटरल एंट्री की प्रासंगिकता का आकलन कीजिए। (10 अंक, 150 शब्द)

lateral entry in civil services was emphasised

By IInd ARC Report in High level post part of civil services reform and same was rolled out in 2018.

Relevance of lateral entry :- Effective - efficient - People oriented

Effective - ① TO bring 'Professionalism' in technical services [in highly globalised and technical world civil servant cannot afford to be "generalist"]

② For Informed Policy making and Implementation of public policies.

③ TO Bring in corporate work culture - That is competitive vs complacent nature of hierarchical Bureaucracy [Rank Based promotion - Poor merit in civil services]

Efficient ④ Specialist in High post leads to cost effectiveness [Better planning + execution]

⑤ By adoption of new innovation and technologies Improves labour and work efficiency at departmental level. [Corporate work culture]

⑥ TO Bring in world Best practices
↳ ④ technical nature of Data protection Bill needs Specialist

④ Recent notification By government invited people from private institutions of global presence]

⑦ TO Reform institution with new Ideas.

People oriented → ⑧ Responsive to needs of people

⑨ Accountability and Improve Quality of service delivery [good governance]

Challenges in lateral entry

- undermines Role of UPSC - A constitutional Body
- does not secure Merit system in appointment (Favouritism)
- Political interference and partiality (↓ Independence of Civil Services)

Way Forward - lateral entry can be permitted to few top level post - But should be done by proper assessment by UPSC in transparent manner

II) Hota committee Recommendation

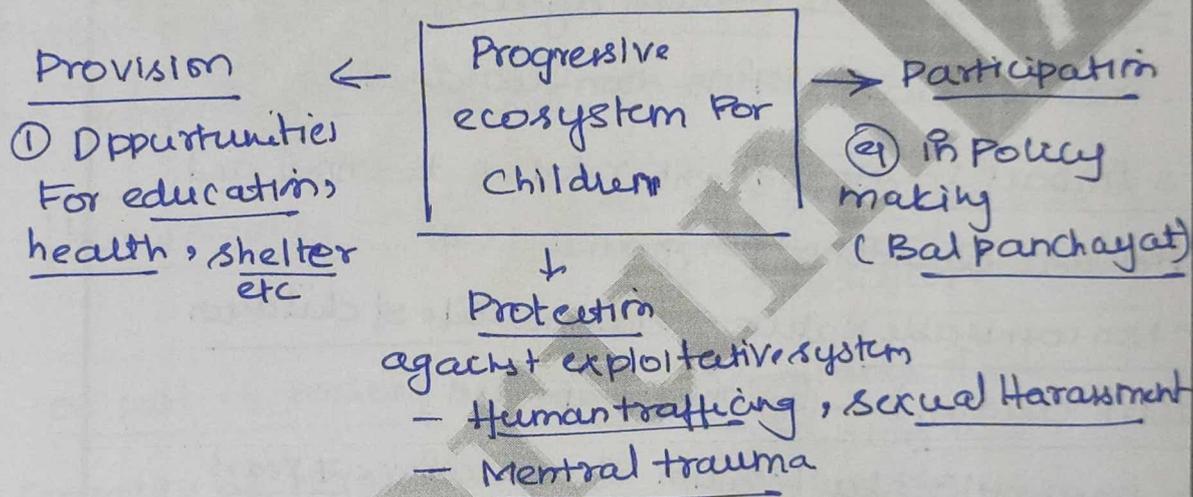

↳ proper mid career Review to improve efficiency and merit based promotion rather Rank based

↳ Separating civil services to (2) domains & mid career learning courses [to improviser expertise]

Q.5) Objectives of a welfare government remains incomplete without a progressive ecosystem for the children's development. Discuss with special emphasis to recently passed Juvenile Justice Amendment Act, 2021. (10 marks, 150 words)

एक कल्याणकारी सरकार का उद्देश्य बच्चों के विकास के लिए एक प्रगतिशील पारिस्थितिकी तंत्र के बिना अधूरा रहता है। हाल ही में पारित किशोर न्याय संशोधन अधिनियम, 2021 पर विशेष जोर देते हुए चर्चा कीजिए। (10 अंक, 150 शब्द)

Idea of welfare government endorsed under Article 38 of Directive principles. It also gives special emphasis for progressive ecosystem for children's development under Article 39, — For healthy development of children

Juvenile Justice Amendment act - Child development

① Writ adoption and child care homes.

— Regulation of child care homes and its

Registration

— Maintenance of Quality standards and aspects of frequent inspection

② Adoption - adoption of children from only registered homes and should be registered with CARA online portal

- certificate of adoption can be certified by district magistrate (providing safe home for children by faster approval)

③ Wrt crimes and penalties :-

- Defining heinous crimes against children
- making few provisions non-cognisable.

Its Impact :- Amendment related to crimes and penalties are questioned on ground that

↳ Non cognisable nature endangers life of children
Crime (against children) - eg Unnab rape case

↳ Unscientific classification of case above 7 years as heinous crime.

↳ Wrt adoption - certification by DM may lead to delay due to overburdened nature ✓ DM lacks specialisation etc.

Since children forms future of India, their needs, rights and opportunities should not be compromised. Thus with proper consultation grievance of foresaid act should be addressed.

Q.6) Decriminalization of homosexuality by the SC in Navtej Singh Jauhar case remains a task half done, specially without the socio-political sensitisation about the issues faced by LGBTQIA+ community. Elaborate in light of ongoing debates on same sex marriage. (10 marks, 150 words)

नवतेज सिंह जौहर मामले में सुप्रीम कोर्ट द्वारा समलैंगिकता को अपराध की श्रेणी से बाहर करना अभी भी आधा अधूरा काम है, खासकर LGBTQIA+ समुदाय के सामने आने वाले मुद्दों के बारे में सामाजिक-राजनीतिक संवेदनशीलता के बिना। समलैंगिक विवाह पर चल रही बहस के आलोक में सविस्तार पूर्वक वर्णन कीजिए। (10 अंक, 150 शब्द)

SC in Navtej Singh Jauhar case decriminalised

A-377 of IPC. It does not lead to legal recognition of Homosexuality denying their opportunities and development.

Recent ongoing debate b/w SC and central government on Homosexuality underlines non-acceptance by majority.

Homosexuality (SC) Judgement - half done - lack of socio-political sensitisation

On part of society :- ① Non-acceptance of Homosexuality as Norm leading to victimisation and stigmatisation → Mental trauma (@Family level) → denial of identity (Identity crisis)

② denial of Basic necessities - Housing, health care etc. eg Spouse of Homosexual couple cannot sign during medical emergency

③ denial of government welfare schemes -

eg denying Smart ration card and Public distribution system.

④ No inheritance rights and other marriage rights.

On part of political level.

① Non Recognition of issue by government.

↳ as government replied marriage as tradition between man and women and homosexuality refutes sancity of marriage

② Lack of legal Recognition of Homo-sexual marriages

↳ creating legal vacuum — denial of adoption, surrogacy and other rights under legal framework.

③ Absence of protection — No separate law/policy to protect rights of homosexuals.

Way Forward — ① government should recognise their rights by providing legal recognition under special marriages act (1954)

② strigent protection measures against violation of individual's rights and privacy (Article 21)

③ Strengthening opportunities — By framing inclusive policies by proper representation and stakeholder consultation

④ Forming separate commission like NCBC to protect their rights.

Q.7) India's "balancing act" in the ongoing Ukraine crisis is borne out of mature strategic thinking rather than mere necessities. Explain. (10 marks, 150 words)

मौजूदा यूक्रेन संकट में भारत का 'संतुलनकारी व्यवहार' केवल आवश्यकताओं के बजाय परिपक्व रणनीतिक सोच से पैदा हुआ है। व्याख्या कीजिए। (10 अंक, 150 शब्द)

In words of experts,

"Balancing is diplomatic success" - In the

ongoing Russia - Ukraine crisis India plays Balancing act rather than 'Fishing in troubled waters'.

Role of India - Balancing act :-

① Abstain From Voting in UN - Asking for Peaceful and Bilateral resolution of issues without intervention by West countries.

② 'Supplying aid rather supplying Arm' - NATO countries (eg) Germany were sending arm whereas India sent 190 tonnes of Humanitarian Aid (Protection of rights) vs Bandwagoning by other countries

③ Calling for 'mediation' role - rather pushing America's interest like what other countries do.

↳ (eg) America No longer play wars, it watches war to reap own benefits.

④ India's unwavering support to 'Territorial Integrity' - 'Westphalian notion' (Voice for Ukraine)

⑤ Not playing role of Hardpower ⑥ India was against Unilateral economic sanction as it leads to more damage on globalsouth.

⑦ India Bought oil From Russia @ Subsidised price - which stabilised global oil price [Indirectly benefiting european countries]

⑧ Unwavering support toward Foodsecurity and rights protection ⑨ Turkey and India role in Blacksea grain Initiative.

Yet India was criticised For

① Not voicing against war and said to be 'sitting on Fence'

② Unintentionally lead to oil laundering - circumventing economic sanctions.

③ India's passive role leading to strong Russia - china nexus.

"This is not era of war" - Though India's diplomacy was a success as it maintains cordial relation with both Ukraine and Russia, It should play active role to prevent "Frozen War" - without Permanent peace

Q.8) What do you understand by Non-Aligned-Movement (NAM)? Is India's foreign policy still guided by the principles of non-Alignment? Justify.

(10 marks, 150 words)

गुटनिरपेक्ष आंदोलन (NAM) से आप क्या समझते हैं? क्या भारत की विदेश नीति अभी भी गुटनिरपेक्षता के सिद्धांतों द्वारा निर्देशित है? औचित्य सिद्ध कीजिए।

(10 अंक, 150 शब्द)

Non - Aligned movement - Means Romantic

neutrality away from cold war blocs to protect

countries sovereignty. 'Optimistic Non-Alignment' was (1947)

the spirit of post-Independence foreign policy,

which also transformed into now "energetic diplomacy"

(2014 onwards)

India's Foreign policy - Not completely guided By
NAM

① 'Multi alignment with all' - Strategic autonomy and to seize opportunities wherever possible (eg) Buying THAAD from USA, S400 From Russia

② Deeper engagement - in all spheres.

eg) India signed ④ defense security agreement with USA along with economic integration (USA one of largest trading partner)

③ Forming multilateral group -

- QUAD, I2U2 etc [energetic role to

Find common ground in shared concerns]

④ as global "Narrative Partner"

↳ eg) UN convention against terrorism.

- ⑤ Institutional Building (eg) CDRI and International Solar alliance
- ⑥ Amplifying concerns of developing countries in global forum (eg) UNFCCC/COP - Pandavurth.
- ⑦ 'Hard diplomacy' → giving line of credit to poor developing countries (eg) 500mn loan to Pacific Island countries

However continuity of NAM Ideas in Foreign Policy can be found in

- ① 3rd world solidarity - "Voice of global south" - India's role
- ② Westphalian notion of territorial integrity
"This is not era for war" - PM MODI against Russia - Ukraine war
- ③ Idea of Sovereignty - against outside Interventions (eg) India's call for Regulatory data

There is continuity and change in every Foreign policy. Thus core values/Ideas of NAM still intact along with changes to meet current day challenges a found is India's current Foreign policy.

Q.9) Built upon common democratic values and shared vision of strategic autonomy, India-France bilateral ties exude a promise of stability, growth, and security in a time of geo-political flux and uncertainty. Do you agree? Substantiate your answer. (10 marks, 150 words)

सामान्य लोकतांत्रिक मूल्यों और रणनीतिक स्वायत्तता के साझा दृष्टिकोण पर आधारित, भारत-फ्रांस द्विपक्षीय संबंध भू-राजनीतिक प्रवाह और अनिश्चितता के समय में स्थिरता, विकास और सुरक्षा का वादा करते हैं। क्या आप सहमत हैं? अपने उत्तर की पुष्टि कीजिए। (10 अंक, 150 शब्द)

India - France shares historical ties by
Freedom struggle movement and Unwavering support
For "liberty, equality and Fraternity" - Thus Built
upon common democratic values and strategic autonomy.

India - France ties - exude promise of

① Stability - "Rule Based
political stability: - order"

▷ democratic countries
Voicing against authoritarianism

② against sudan crisis

▷ Protection of Human rights

Economic stability

▷ Supply chain resilience
(Friend shoring)

▷ against unilateral
sanction + protectionism

▷ energy security - France-India (International
Solar Alliance)

Current
Geopolitical Flux
and
Uncertainty

China's expansionism
and Assertiveness
(9 dashline)

America's protectionism

Europe war
(Russia-Ukraine)

State sponsored
terrorism (Afghanistan)

Military coup and
Non-traditional
threats

- ② Growth → By vibrant trade and investment ties
- ↳ maintaining global supply chain and China + One policy
 - ↳ Reducing exchange rate volatility and Promoting de-dollarisation via (~~Rupee~~ Rupee-France) arrangement and adoption of UPI in France
 - ↳ Human development → Education and Health opportunities (Indian Universities tie up with French Universities) and Relaxation of Visa regime for Indian students
- ③ Security ▷ Free and open Indo-pacific France oversees territories in Reunion Island and India's centrality in Indian Ocean (complementary)
- ▷ Security sealanes of communication
 - ▷ Countering terrorism emanating from governed spaces (France supported India's role in designating Abdul Rehman Makki) as terrorist.

Thus France-India relation holds key for global stability and also it helps India to secure seat in UNSC council to further expand voice of global-south

Q.10) As an important attribute of soft power, "Knowledge diplomacy" has the potential to further various objectives of foreign policy. Explain. (10 marks, 150 words)

↳ For customised learning experience as per needs of children (e) those with special needs.

③ wrt pedagogy -
 ↳ digital intervention used to prepare teaching material through videos, puzzles etc
 ↳ For teacher training onsite (eg) Swayam portal
 necessary for quality maintenance

④ effect on children:

↳ Reduces gross enrollment ratio - as digital education may improves outcome and engaged children actively in learning process

↳ improves girl education - as they can avail course online - often girls dropout at school level due to safety consideration

Digital education - limitation

① Reinforces social divide :-

- only (29%) of women uses internet regularly.
 This exclude those who are already marginalised.
 - (digital divide)

- Poverty and affordability :- of electronic devices
 especially to poorer section may increase dropout rate - as poor people send children to school because of midday meal. In addition economic burden will lead to increased child labour.

② High cost of data and low speed and high latency affect digital education.

③ on part of teacher :
— most teachers are without proper training
to digitally educate students

④ on part of children :
— may loss Focus due to interventions like
Videogames, youtube videos — leading to poor
educational outcome
— school is a place where student learn to
'share and care' — digital education cannot teach
Such life lessons.

⑤ on part of parents :
— only 77% of Indian population are literate.
Digital education may burden parents due to lack of
digital literacy and also difficult to oversee child

गैर-सरकारी संगठनों (NGOs) और सरकार की अनुठी विशेषताओं और शक्तियां उन्हें शासन और विकास प्रक्रिया में एक दूसरे की पूरक बनाती हैं। टिप्पणी करें। गैर सरकारी संगठनों के प्रभावी और प्रगतिशील विनियमन की आवश्यकता का मूल्यांकन कीजिए। (15 अंक, 250 शब्द)

[creating social capital]
- ④ Assisting government in service delivery as they enjoy cordial relation with community

NaO - government - Complimentary role:-

- ↳ service delivery

Non-complimentary role of Nco :-

eg) Greenpeace → Fueling Protest against Kudantatulam project → Nco Reason for 2-3% ↓ in GDP

This Requires Progressive Regulation For Nco

Because

▶ To encourage culture of people managing own affairs themselves (Through Nco)

▶ To derail Nco used for round tripping Black money

▶ To make Nco responsible and responsive to its members (democratic nature away from elitism)

▶ To Free it from Western influence + Role of donors (Regulating Funding)

eg) Foreign Funding to India Nco for their own benefits

▶ For Not Punishing morally good Nco

eg) Recently government cancelled 1000 NCO registration. This wrong act by few Nco should Not

Punish

This 'National Policy on Voluntary Sector' (2007) should be amended to meet needs of Nco and effectively manage it by setting National accrediting agency

- ② Bureaucratization - Role of Forest officers
- ↳ Not devolving power to gram sabha

- eg) under only few states like Chattisgarh devolved community resource right under FRA
- ③ Development led displacement. According to Worldbank after war, development led displacement is second factor in people movement
- eg) Panna Area - (Ken - Betwa link project led displacement)
- ④ Difficult for them to market Minor Forest Produce (Reduced Income security)

⑤ PRI dependant on government for Fund and Functionaries

⑥ Vested-Interest and landgrabbing by powerful groups (Ineffective role of gram sabha - Inclusion + exclusion errors.)

Way Forward ① Kerala model - providing document to tribals in Wayanad area - This Reduces exclusion problems.

② effective functioning of PRI: By devolving Power, Function and Fund to grass root level - Sensitisation of Bureaucracy.

③ FRA - Income security: TRIFED initiative creating Forward and Backward For minor Forest goods to improve market access + sustainable-income
